A DELECTABLE DISH FOR THE SKIN

Caviare Plus from Vincent Davianny turns a favourite elite delicacy into tautening and refreshing moisturising gel. Caviare Plus is formulated with caviar extract and Argireline to act against the appearance of wrinkles and improve skin's moisture and firmness and prevent ageing. Mini capsules with the shape and appearance of caviar have been added to the product. These tiny spheres burst when the stopper is pressed and contain active ingredients that remain protected from the environment to penetrate the skin at just the moment where optimum results are required.
