EXTREME EYE CARE

Vincent Davianny's Vita-Lift Day Eye Anti Wrinkle Concentrate is a multi-active concentrate designed to fight atmospheric contaminants and protect the eye area, while ensuring hydro-lipid maintenance to prevent early ageing. Containing pectin's extracted from apples and peaches – known for inhibiting the permeation of pollutants through the cellular membrane, and active ingredients extracted from cereals - known for their natural stimulation of fibre production, thus increasing flexibility and hydration. Also containing R.O.D., an active ingredient that allegedly superiorly prevents the formation of free radicals, Vita-Lift Day stimulates cell metabolism and improves circulation, reducing the appearance of bags. Contact: Vincent Davianny Skincare 02 9695 2840.
